Professional Profile

I am a dedicated final year student pursuing a Bachelor of Science degree in Computational Applied Mathematics and Economics. Who is enthusiasm about science and Technology . My passion for technology and science drives me to constantly question how things work and explore why we don't approach them differently. I possess a fervent desire to expand my knowledge and make, a significant impact in the tech industry. I seize every opportunity to maximize my potential.

EDUCATION:

BSC Computational and Applied

 Mathematics, and Economics Science| Witwatersrand University

2020-2023|

This special course includes two subjects: Computational and Applied Mathematics, and Economics. We learn about different parts like math problems solving, using numbers for analysis, making things better with math, and how math applies to real-life situations with computers and coding. There's also basic money management in accounting, dealing with bookings and financial records. And we study advanced math, too.

Patrick Ramaano Secondary School |2015-2019

2022-2023|

WITS GDSC member 2022 – 2023

At WITS Google Developers Students Club, we actively tackle current challenges by looking into diverse frameworks and languages aimed at problem-solving. Our approach involves familiarizing ourselves with various tools to address analyzed issues. Much of our work is guided by Google officials, who provide direction on optimal frameworks like Angular-Web and Flutter-App.

2023 |

Web Developer & Tressure

Working as web developer volunteer at GYEP(Gondolashu Youth Empowerment Program).My job was mainly to develop website to help high school students access academic resources and online tertiary application. Which we also include motivations, update from NSFAS and other relevant Institutions updates to Tertiary Learners

SKILLS:

• Proficient in Web development (HTML, CSS and JavaScript) • Python, JavaScript, and SQL, MERN • Familiar with MATLAB, PHP, and Java • Game Development • Math Skills	• Teamwork • Time Management • Process Development • Strong analytical and financial analysis skills • Leadership
